**RE: ASSESSMENT OF ECOLOGICAL EFFECTS OF PROJECT DRURY PLAN CHANGE**

Dear Steve

Following our letter dated 17 December 2009, outlining the Golder peer-review and comments on the 'Assessment of Ecological Effects on the Terrestrial & Freshwater Biota Associated with the Proposed Plan Change' (Drury South AEE) for Project Drury Plan Change as prepared by Boffa Miskell Limited (November 2009), Golder staff recently held a meeting with the authors of the AEE. The meeting was held on Thursday 11 February 2010 with the purpose of detailing the changes made to the Drury South AEE by the authors.

At the meeting, Golder staff had the opportunity to hear and to discuss the changes to the Drury South AEE, as well as recommend further modifications. Notwithstanding that the report was based on the available information, and notwithstanding any further comment by the Auckland Regional Council, Golder are satisfied that the Golder review comments have been addressed and we now consider the Drury South AEE a robust report for the purpose of an application for a plan change.

Yours sincerely

**RE: ASSESSMENT OF ECOLOGICAL EFFECTS OF PROJECT DRURY PLAN CHANGE**

Dear Steve

Golder has reviewed the revised version of the 'Assessment of Ecological Effects Associated with the Proposed Plan Change' by Boffa Miskell Limited (December 2010). We note the minor changes in the design of the project have resulted in some changes to the assessment of effects and the proposed mitigation.

Notwithstanding that the report was based on the available information, and notwithstanding any further comment by the Auckland Council, Golder are satisfied that the revised 'Assessment of Ecological Effects Associated with the Proposed Plan Change' by Boffa Miskell Limited (December 2010) does not materially change our view that the assessment is adequate for its intended purpose to support an application for a plan change<sup>1</sup>.

If you have any queries regarding Golder comments on the AEE please contact Ian Boothroyd at 021 2754109 or via e-mail at [iboothroyd@golder.co.nz](mailto:iboothroyd@golder.co.nz).

Yours sincerely

## REPORT LIMITATIONS

This Document has been provided by Golder Associates (NZ) Ltd ("Golder") subject to the following limitations:

- (i). This Document has been prepared for the particular purpose outlined in Golder's proposal and no responsibility is accepted for the use of this Document, in whole or in part, in other contexts or for any other purpose.
- (ii). The scope and the period of Golder's Services are as described in Golder's proposal, and are subject to restrictions and limitations. Golder did not perform a complete assessment of all possible conditions or circumstances that may exist at the site referenced in the Document. If a service is not expressly indicated, do not assume it has been provided. If a matter is not addressed, do not assume that any determination has been made by Golder in regards to it.
- (iii). Conditions may exist which were undetectable given the limited nature of the enquiry Golder was retained to undertake with respect to the site. Variations in conditions may occur between investigatory locations, and there may be special conditions pertaining to the site which have not been revealed by the investigation and which have not therefore been taken into account in the Document. Accordingly, additional studies and actions may be required.
- (iv). In addition, it is recognised that the passage of time affects the information and assessment provided in this Document. Golder's opinions are based upon information that existed at the time of the production of the Document. It is understood that the Services provided allowed Golder to form no more than an opinion of the actual conditions of the site at the time the site was visited and cannot be used to assess the effect of any subsequent changes in the quality of the site, or its surroundings, or any laws or regulations.
- (v). Any assessments made in this Document are based on the conditions indicated from published sources and the investigation described. No warranty is included, either express or implied, that the actual conditions will conform exactly to the assessments contained in this Document.
- (vi). Where data supplied by the client or other external sources, including previous site investigation data, have been used, it has been assumed that the information is correct unless otherwise stated. No responsibility is accepted by Golder for incomplete or inaccurate data supplied by others.
- (vii). The Client acknowledges that Golder may have retained subconsultants affiliated with Golder to provide Services for the benefit of Golder. Golder will be fully responsible to the Client for the Services and work done by all of its subconsultants and subcontractors. The Client agrees that it will only assert claims against and seek to recover losses, damages or other liabilities from Golder and not Golder's affiliated companies. To the maximum extent allowed by law, the Client acknowledges and agrees it will not have any legal recourse, and waives any expense, loss, claim, demand, or cause of action, against Golder's affiliated companies, and their employees, officers and directors.
- (viii). This Document is provided for sole use by the Client and is confidential to it and its professional advisers. No responsibility whatsoever for the contents of this Document will be accepted to any person other than the Client. Any use which a third party makes of this Document, or any reliance on or decisions to be made based on it, is the responsibility of such third parties. Golder accepts no responsibility for damages, if any, suffered by any third party as a result of decisions made or actions based on this Document.
